

IMV Projects is a multi-discipline Engineering, Procurement and Construction Management (EPCM) and Project Management company providing services to Clients in the oil and gas industry. Based in Calgary, IMV Projects has about 700 employees involved in a broad spectrum of small, medium and large projects. Our main objectives are to provide services that exceed our Client's expectations and to provide a rewarding and comfortable working environment for our employees.

We are currently involved in a number of heavy oil and conventional oil and gas projects for Canadian and international clients and wish to add to our team of professionals. Candidates will preferably have previous oil and gas EPCM experience in a Project Management or Project Engineering role (APEGGA membership is required for Project Engineering positions). We are also actively seeking qualified individuals, at all levels of experience, in Design & Drafting, Procurement, Cost Estimating, Planning/Scheduling, Document Management and Discipline Engineering (process, mechanical, pipeline, civil/structural, electrical, instrumentation, controls and subsea).

IMV Projects provides a flexible, positive and progressive work environment that is supportive of our people and their development. We are also part of the Wood Group, an Aberdeen-based international energy services company employing 22,000 people worldwide with operations in 46 countries.
